PROFESSIONAL SUMMARY

Entry-Level Software Developer with practical experience in C#, ASP.NET Core MVC, Entity Framework Core, and SQL Server. Completed Work Integrated Learning at a district hospital IT department, contributing to real-world Electronic Health Record (EHR) systems. Skilled in building and debugging database-driven web applications with authentication, CRUD operations, API integrations, and role-based access control. Passionate about developing scalable and secure software solutions.

TECHNICAL SKILLS

Programming Languages: C#, Java, PHP

Web Technologies: ASP.NET Core MVC, HTML5, CSS3, JavaScript

Databases: SQL Server, MySQL, Entity Framework Core

Tools & Technologies: Git, GitHub, Visual Studio, XAMPP

Concepts: OOP, MVC Architecture, REST APIs, CRUD Operations, Authentication & Authorization, Data Validation

WORK INTEGRATED LEARNING (WIL)

Software Development Intern

Ceza Hospital, IT Department (KwaZulu-Natal Department of Health)

Jan 2026 – Jan 2026

- Contributed to Electronic Health Record (EHR) system improvements using C# and ASP.NET Core MVC
- Debugged and enhanced patient vital tracking applications using data annotations and validation
- Implemented DbContext and database relationships for Web DHIS and Tier.net integrations
- Developed and scaffolded controllers and Razor views for fault-logging and medication tracking systems
- Built API endpoints and authentication modules for secure staff access
- Assisted in developing real-time vitals dashboards and automated EHR backup tools
- Applied MVC architecture, Entity Framework Core, and Razor concepts in a live enterprise healthcare environment

PROJECTS

Internship Application Management System

Technologies: C#, ASP.NET Core MVC, Entity Framework Core, SQL Server

- Developed a full-stack internship management system using MVC architecture
- Implemented user authentication and role-based access control
- Built CRUD functionality for managing internship applications
- Integrated SQL Server database using Entity Framework Core
- Designed responsive user interfaces using Razor and Bootstrap

GitHub:

RichStay Web Application (School Project)

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Built a database-driven accommodation booking platform
 - Designed relational database schema
 - Implemented CRUD functionality for listings and bookings
 - Managed version control using GitHub
-

EDUCATION

Bachelor of Science in Information Technology – 2025
Richfield Graduate Institute of Technology

Higher Certificate in Information Technology – 2022
